A quick note on the work of the Designated Quality Body (DQB)
Higher Education and Research Act 2017

**Independent** designated quality (QAA) and data (HESA) bodies

Key functions of the designated quality body:

- Assessment of quality and standards
- Advising the OfS on granting, varying or revocation of degree awarding powers and university title
Features of the new English framework

‘The Office for Students (OfS) is a new regulator for English higher education. It will adopt a bold, student-focused, risk-based approach, reflecting the significant changes to higher education of the last 25 years and seeking to anticipate the changes still to come.’

Features of the new regulatory framework include:

• Risk-based, proportionate, outcomes-focused approach to regulation (baseline compliance)
• Strong focus on value for money for students and taxpayers
• Single register for providers – 24 conditions of registration
• New concept in the framework – allows for institutional failure
• New degree awarding powers (NDAPs)
• Annual random sampling of providers (e.g. 5%)
Work of the designated quality body

Working with the OfS

New Degree Awarding Powers processes (NDAP) – All nations

Design and delivery of review methods:
• Initial registration (Quality & Standards Review: Gateway)
• Breach of registration conditions (Enhanced monitoring)
• Random sampling

Degree classification: transparent, consistent and fair academic standards

Universities UK, GuildHE and QAA report *Degree classification: transparent, consistent and fair academic standards* published today - [www.universitiesuk.ac.uk/](http://www.universitiesuk.ac.uk/).

The report:

- explores reasons behind the 55% increase in 1st and 2.1 degrees between 2007-08 and 2016-17
- proposes solutions such as providers should issue a sector-wide statement of intent, protecting value of qualifications over time, including commitments to:
  - review and publish evidence on their degree outcomes
  - agree common descriptors to be used by all providers describing the quality of work required for each classification
  - publish and explain scoring systems determining final degree classifications, including any differing practices

Consultation released today on:

- the proposed solution
- how the common descriptions should be incorporated into different national quality assurance and regulatory frameworks in the UK

Consultation closes on 8 February 2019, next steps expected in April 2019

A series of consultation workshops will be conducted across the UK in January 2019.
Academic integrity and contract cheating?

What are the common manifestations?

- Fake certification (HECSU Prospects)
- Inappropriate/Fraudulent degree validation
- Admissions Fraud
- Exam fraud
- Essay Mills
- ‘Traditional’ plagiarism
- Corruption
The Role of Quality Assurance in ensuring Academic Integrity

Cheating, including plagiarism, poses a threat to academic standards

The UK Quality Code for Higher Education

Revised Code’s core practice: “The provider uses external expertise, assessment and classification processes that are reliable, fair and transparent.”

QAA is well-placed in the UK HE sector to lead on a matter that is clearly in the public interest

In 2017 QAA was asked by the Government to lead the sector’s efforts against contract cheating and essay mills

YouTube stars are being paid to sell academic cheating, a BBC investigation has found.
Developments and considerations

Academic Integrity Advisory Group
Experts across the sector, providers, representative bodies, UK Governments, Turnitin, HEDD & a parliamentarian. Identified two priority work streams;

• Is legislative action appropriate (even if no magic bullet)?

A UK Centre for Academic Integrity?

• Need to co-ordinate across all nations of the UK and internationally
• Letter from 45 Vice Chancellors and sector leaders from across the UK asking the Government to take action including ‘supporting the QAA’s proposed initiative to establish a UK Centre for Academic Integrity, with a formal remit to research, analyse and combat academic misconduct.’
• How might a centre be funded?
Teaching Excellence Framework (TEF)
What QAA does

• Supports OfS in implementing the assessment stage of TEF at provider level and the Subject-level Pilots through:
  • Provides staff to manage, guide and facilitate the panels’ assessments
  • Provides a secure IT system to manage the sharing of assessment information with panel members.
  • Provides a pool of TEF Officer staff to guide and facilitate the assessments made by TEF panel members and assessors
  • Develops and operationalises an IT Solution (TEF extranet) to support the work of the TEF implementation team, TEF officers, panellists and assessors.
TEF: what’s new?

**Provider level:**
- Award duration
- Metrics improvements
  - Grade inflation
  - LEO date
  - POLAR4

**Subject level:**
- Student engagement
  - Panel members
  - TEF student representative
  - Submissions
- Model
- Criteria
- Metrics
- Outcomes
Next steps

• Independent review
  – Appointment imminent

• Full scale subject level TEF
  – Two year assessment period

• For this round of subject level TEF – the majority of subject panels now include a representative from a PSRB
Any questions?
