

Study Tour Programme

British Council Saudi Arabia

In November 2017, the Quality Assurance Agency welcomed 15 Saudi Arabian nationals to undertake a programme of learning and practical activities around how UK higher education institutions assure quality processes, procedures and systems. Over the course of one week, the delegates attended three universities to develop their understanding of UK higher education quality assurance, receiving a certificate on completion.

Swansea University

- The national higher education context
- The university's changing approach to quality assurance and enhancement
- Data landscape
- Programme design and approval
- The quality review process
- Programme portfolio review

University of South Wales

- Introduction to quality assurance at USW
- Validation at USW
- IT solutions
- How data is used to inform quality
- Reactions to the changing national picture
- Continual monitoring and risk

UWE Bristol

- Quality management
- The UWE Quality Framework
- Programme development, approval and review
- Use of data for continuous improvement
- Regulatory environment

“ It was an amazing programme, I got much information about quality assurance and enhancement by visiting several universities ”
