The Access to HE Diploma specification
Access to HE Qualification Timeline

Access to HE Certificate
- HEQC recognition 1994-1997
- QAA-recognition 1997 - 2008
- No national credit value
- No national grade scheme
- Outcome Pass / Fail

Access to HE Diploma (2006 Specification)
- 2006-2008 ungraded (pilot 2006-08)
  - 60 credits (minimum 45 at level 3)
  - Unit size 1, 3, 6, 9, 12 credits
  - No overall grade
  - Grade transcript: Pass, Merit, Distinction
- 2009 graded (pilot 2008-09)
  - 60 credits (minimum 45 at level 3)
  - Unit size 1, 3, 6, 9, 12 credits
  - No overall grade
  - Grade transcript: Pass, Merit, Distinction

Access to HE Diploma (2013 Specification)
- September 2014
  - 60 credits
  - 45 graded @ level 3
  - Unit size, 3, 6, 9
  - No overall grade
  - Grade transcript: Pass, Merit, Distinction
  - UCAS tariff points September 2017 entry onwards
The Access to HE specification: Clarity of aims and purpose

The current specification was introduced in 2013 in order to:

• ensure **equity** for students

• improve **consistency, clarity** and **transparency**

• underpin the assurance of **standards**

• maintain some degree of **local determination** of details of content, delivery and assessment.
The Access to HE delivery infrastructure

- 11 awarding bodies - Access Validating Agencies (AVAs) - licensed by QAA

- AVAs approve providers (mainly in further education, but some in community colleges, adult education centres, universities and private providers) to offer the Access to HE Diploma, and quality assure the provision
Current specification

45 credits from graded Level 3 units concerned with academic subject content

15 credits from Level 2 or ungraded Level 3 units

60 credits total

Amendment to regulation on referrals

GCSE-equivalents withdrawn
Diploma = 60 credits total

• Students are registered and certificated for specified units to the value of 60 credits; this provides the basis for a planned, coherent programme of study

• Rules of combination identify the units (including mandatory and optional units), which define the required achievement for students = 60 credits

• Registration for named units by students must be completed with the AVA no later than 12 weeks from the planned start date of the Access to HE course - or before the student applies to HE
Unit credit values

• All Diplomas made up of units of three, six or nine credits
• All Diplomas will contain 45 credits from graded Level 3 units concerned with academic subject content
• These units can be of any of the permitted credit values (three, six or nine), so the number of units taken and grades reported will vary
Criteria for academic subject content

a. The unit content (as expressed in the learning outcomes and assessment criteria) must relate to knowledge and skills of subjects identified in the title of the Diploma

b. Students must be supported and assessed for the work of such units by subject experts
The definition includes knowledge and skills related to all Access to HE Diploma subjects - for example, Multimedia as well as History.

Not study skills, personal development, or generic English or mathematics units, but can include specialist (for example, maths for engineering) and technical (for example, laboratory skills).
Academic subject content (continued)

For units that focus on a large scale research project or major final project:

e. Units have learning outcomes and assessment criteria relating to students' command of the knowledge domain and conventions of the subject (not just generic research skills)

f. Student work must be original work for the unit only (not just 'cross-referenced' from work produced to demonstrate achievement of other units' learning outcomes)
Ungraded units at Level 2 or Level 3

• For use in the 15 credits of non-graded content

• Decision about the balance between ungraded Level 2 or Level 3 units is determined according to the requirements of the intended progression route and approved through the validation process

• Units must be identified as Level 2 or Level 3 in the rules of combination for a named Diploma
Ungraded units at Level 2 or Level 3 (continued)

- Level 3 ungraded units may also be concerned with academic subject content.
- If Level 3 units are required as graded in some Diplomas and ungraded in others, these must be separately validated units.
Referrals

Current specification state:

• a request for a referral is allowed at any point in the course
• the decision process to allow the request must involve the external moderator
• students are limited to referrals for assessments to a maximum of 15 credits.
Referrals (continued)

• If the referral is for a graded unit, the grade for the resubmitted work is capped at Pass
• Diploma specification are available via the QAA website
GCSE equivalents from 2014

• In September 2014, QAA withdrew the GCSE equivalence scheme and no longer regulates or endorses the claim of GCSE equivalence for groups of Access to HE units

• There may, however, be some students who completed the previous versions of the qualification that have GCSE equivalence results
GCSE equivalents from 2014

The changes were in response to:

• varying acceptance by HEIs (growing need for full GCSE and 'Grade B' equivalence)
• lack of recognition by employers
• changing perception of value of 'equivalents'
• policy and funding of GCSEs for adults
• increasing numbers of students with GCSEs
• impact on Diploma structures.
Possibilities and alternatives to GCSE equivalents

- Up to 15 credits at Level 2
- Potential for AVAs and providers to maintain local arrangements with local higher education providers (HEPs) or courses, where units within their Diplomas are accepted as adequate to satisfy the HEP's GCSE requirement(s)
- Funded GCSE achievement before or alongside Access to HE
- Additional 'space' in Diploma for other units
Current specification: The implementation timeline

New specification developed and published: 2012-13

Development year for AVAs and providers: 2013-14
Diplomas redeveloped and revalidated, where necessary

Full implementation: From 2014-15
All Diplomas compliant; students applying to HE

First students entering HE with new specification: 2015-16
What stayed the same?

• Level and size of qualification: Level 3, 60 credits

• The Grading Scheme

• Credit and unit technical definitions etc and:
  
  what it's for: preparation for higher education

  who it's for: adults who left school with insufficient formal qualifications to progress to higher education
The Access to HE Diploma (since 2013)

All students who have achieved the full Diploma will offer:

- exactly 60 credits
- exactly 45 credits from graded Level 3 units concerned with academic subject content.

Further information relating to the Diploma and higher education admissions is available in the Access to HE Diploma: Toolkit for Higher Education Admissions Staff
