What have you heard or seen today that might inform how you might use technology to enhance your assessment & feedback practice?

What key messages would you like to tell institutional managers to help you & your colleagues use technology to enhance your assessment & feedback practice?

Thinking about your own assessment & feedback practice - what would you like to improve?

Focus on Assessment & Feedback

Support

Reflection

I am proud of...

I would like to work at...

I would like to try...

They help us by...

It would help if they...

We would like them to...

Thinking about your own practice in using technology to support assessment & feedback - what are you most proud of?

What do your institutional managers need to do better to help you enhance and develop your practice?

How does your department or institution help you enhance and develop your practice in this way?
