

# FOCUS ON: FEEDBACK FROM ASSESSMENT 17-18

## FEEDBACK FROM ASSESSMENT FILMS

Focus On projects aim to help higher education institutions and students' associations with work in their key priority areas. The topics we choose come out of the recommendations and commendations from Enhancement-led Institutional Reviews (ELIR). Focus On ties these outcomes to developmental activities, resources and events that the whole sector can get involved in.

# FEEDBACK FROM ASSESSMENT FILMS

## Sector progress and the future for feedback

How far has feedback come in the last 5 years and what still needs to change? What are the big things affecting the sector now? What progress have we made?

## What do staff and students say about feedback?

What do students think works and what do staff think and is there a difference? What makes feedback useful for students and motivates them to use it? What responsibilities do staff and students have in making feedback work?

## Using technology for assessment feedback

How can we use technology effectively to improve feedback? What works? What do students value?
